

Midwives

Members of Ontario's Health Care Team

Midwives are an integrated part of the health care system and have hospital privileges.

Registered midwife Rebecca Carson examines a new baby at Groves Memorial Community Hospital in Fergus after a routine consultation with Dr. Morgan Kwiatkoski.

Midwives provide safe and expert care to healthy women and newborns

As a midwifery client, you will not see a physician unless there are concerns or complications. Most pregnancies and births are normal. When necessary, midwives consult with or, in some cases, transfer care to a physician.
