

Alliston Midwives is looking for a New Registrant Midwife to join our team.

We are a friendly group of 8 midwives working in 3 shared care teams of 2-3 midwives, in a “Rurban” setting in South Simcoe County. We value work-life balance, post-birth meals together, an environment of support, laughter, and continuous learning. We strive to make collective decisions and ensure that everyone has a voice in our practice.

We have privileges at Stevenson Memorial Hospital in Alliston, Ontario which is a level 1 hospital. We practice with slightly restricted scope: we maintain care for epidurals, TOLAC, labour augmentations, and inductions for multips, and we transfer care for induction of labour for nullips. We work alongside a collegial group of obstetricians, as well as hospitalist physicians for neonatal consults.

We have just been approved for an EMCM program to provide support to our maternal child and surgical programs and there is opportunity for involvement in this program as well.

There is some flexibility with respect to caseload. Most of our midwives plan for 36 BCCs per year, though a reduced caseload may be available if desired on one of our teams. Your caseload will be established prior to your arrival and due dates planned for the month you begin with us.

We are committed to inclusion and diversity. Folks who identify as IBPOC, LGBTQ2IA + or with diverse abilities are encouraged to submit a CV. All qualified applicants will receive consideration for the available contract positions.

Please send your CV and letter of introduction to info@allistonmidwives.ca. Selected candidates will be contacted for an interview.
