

## **LOCUM POSITION- September/2021-March 31/2021**

Born Midwives is looking for a locum midwife to cover a leave of absence. We are looking for a midwife who has an interest in working with a diverse clientele, who is dynamic, organized, and skilled at developing interprofessional relationships. This is a great opportunity for a midwife who is eager to grow their skills in a full-scope hospital with caseload already booked.

Born Midwives is an established practice, located across Cambridge Memorial Hospital, and minutes from HWY401. We enjoy great hospital relationships, have in-house pelvic-floor physiotherapy services, and 2 amazing support staff. Our clinic has 4 clinic rooms, 2 washrooms, and a large kitchen/meeting area. We use the Accuro EMR system along with the Ocean e-referral platform. We have privileges at Cambridge Memorial Hospital where we provide full-scope services including epidural monitoring/management, ordering oxytocin on our own authority and conducting inductions/augmentations for low-risk clients. Cambridge is a fast-growing city with plentiful opportunities for outdoor recreation and is in close proximity to major city centers for entertainment and shopping. Our catchment area includes Cambridge, North Dumfries, and the surrounding area.

This job posting is for a position in a shared-care team. We start payment during the first month of work to ease any financial burden when starting with a new practice. Off-call time and holidays will be established in consultation with your shared-care team and according to our policies.

**CONTACT:** Please fax or email your resume and a cover letter to:
