NEW REGISTRANT POSITION NEW WESTMINSTER, BC

Aveta Midwifery is looking for a new registrant

Aveta Midwifery is currently looking to expand our team with new registrant midwife.

We currently work in an inclusive shared-care model, alternating between phone/Zoom visits and in-person client visits. We enjoy an average caseload with many returning clients and a home birth rate of approximately 10-20 percent (increasing recently in light of COVID-19). We also have both a Registered Massage Therapist and a Physiotherapist specializing in pelvic floor working out of our clinic.

Our primary hospital is Royal Columbian Hospital, a large tertiary centre in New Westminister, BC, with full time OB and paediatric staff on site, with back up privileges at Ridge Meadows Hospital in Maple Ridge. We have strong working relationships with staff at both hospitals.

Our fully equipped and welcoming medical office is located in the Brewery District of New Westminister, just a block away from Royal Columbian Hospital, and has full time administrative support (*have a look at us on Instagram [@avetamidwifery](#)*). We utilize OSCAR electronic medical records and have a dedicated paging service for urgent calls.

We believe in a strong work-life balance and supporting our teammates both on- and off-call. Compensation will initially be based on the Midwives Association of BC (MABC) locum rates, adjusted to a percentage of billings once we have determined that there is a good fit. A start date of July 2022 would be ideal but we are open to earlier or later dates for the right person.

Please submit an expression of interest and CV to the Aveta team at admin@avetamidwifery.ca
