

1 New Registrant Position
Community Midwives of Brantford
Start date July 1st 2018
Full time caseload starting Fall 2018.

The Community Midwives of Brantford are excited to offer a New Registrant position. Brantford is a growing community of about 90,000. It is situated right in the heart of South Western Ontario. With hiking trails along the Grand River, close proximity to larger centres like London, Hamilton and Toronto and the growing presence of Laurier University here in Brantford, it is a great place to live. You get the benefits of great property values and a quiet community. The practice is well established in Brantford with excellent administrative staff and long term relationships with the community and hospital. We are a close knit team of 8 midwives and we are looking for someone who will fit into our midwifery family possibly for the long term.

We work out of Brantford General Hospital and have a very positive working relationship with the obstetrical, nursing and pediatric staff. We can run oxytocin augments and inductions, but we are still working on acquiring full scope for epidurals. We work with a wonderful population of families with a 30-40% home birth rate.

We are looking for someone who has excellent clinical skills and a passion for midwifery.

For our New Registrants we offer strong mentorship. We expect our New Registrants to work in a primary care model initially, but if you stay as a General Registrant, once your skills are consolidated, we are open to shared care models. We currently have midwives working full time, part time and in job shares.

Interested applicants should send their resume and cover letter with 3 references via email. Offers will be dependent upon receipt of New Registrant funding. We thank all applicants for their interest in the Community Midwives of Brantford. Only those selected for interviews will be contacted.
