

Position: New Registrant Midwife;

- ❖ **We are seeking full-time New Registrant contractors (30-36 BCC/yr)**
- ❖ **Ideal start time October 2020**

Family Care Midwives is a successful practice that opened in Southwest York Region in 2011. We are a practice of 12 midwives who are committed to a collaborative, patient-centre care model with a focus on quality and continuous learning. We work in a shared-call model, in teams of 4 midwives, and work 2 weeks per month. This helps support work-life balance as it provides 6 months off a year.

Our office is located in Vaughan and serves a socially and ethnically diverse community. As well as actively educating about and supporting home births, we currently have privileges at Mackenzie Health Hospital in Richmond Hill. Our hospital is supportive of growing the midwifery team as we will be relocating to the brand-new Mackenzie Vaughan Hospital that is currently under construction directly across from Canada's Wonderland (near Hwy 400 and Major Mackenzie Rd). The projected opening date is early 2021 and we are starting to plan now for the anticipated growth. Mackenzie Health offers a dynamic, supportive environment of respect and continuous learning. It is a hospital where all staff, midwives and physicians are valued, can engage in meaningful work as part of a friendly, diverse team and use best-in-class technology to provide exceptional patient care. At Mackenzie Health Hospital, midwives work in full scope by maintaining epidural and oxytocin certification. We also support non-insured residents of Ontario and are connected with the Vaughan Community Health Center.

Family Care Midwives are seeking dedicated midwives with strong clinical skills, including epidural and oxytocin management, while having excellent communication and interpersonal skills. Strong computer skills are also required, as both our clinic and hospital have EMR. We currently have midwives who can speak English, French, Hebrew, Russian, Farsi, Cantonese and Mandarin, so speaking another language would be an asset.
