

General Registrant Position

OUR PRACTICE

The practice covers several small urban centers and a rural area, with clinics in Grand Valley, Fergus and Mount Forest, and includes several Mennonite communities. We use an EMR (OSCAR) for charting, and have excellent administrative support. Our out-of-hospital birth rate is approximately 20% including births at our birth suite in Fergus.

OUR HOSPITALS

We attend most of our hospital births at **Groves Memorial Community Hospital (Level 1+)** in Fergus. The new hospital which will replace the current facility should be complete in 2019. GMCH has a history of supporting midwifery practice and promoting excellent interprofessional communication. Midwives are welcome to attend weekly obstetric rounds. Currently there are about 475 births/year at Groves. Obstetric, family physician and anaesthetic back-up are available 24/7. We maintain care for epidurals; oxytocin is a transfer of care.

We occasionally attend births at **Louise Marshall Hospital (Level 1)** in Mount Forest which is a very small rural hospital suitable for low-risk births only – there are no obstetric or anaesthetic services available.

THE POSITION

Our practice is growing and we are looking for a General Registrant to add to our existing team. The ideal candidate has a strong work ethic, excellent communication skills, and a good sense of humour. Caseload and call schedules are negotiable. The initial one-year contract can be extended into a long-term position for the right candidate.

Please forward your CV and cover letter to hclinch@grandvalleymidwives.ca
