

General Registrant LOCUM – August 2018

We are looking for a General Registrant Locum for the month of August 2018, either the entire month or a portion of the month. We are a very busy two midwife practice in a small community in Northwestern Ontario. One of our RMs is going on holidays for the month of August and we have a busy month which would require a Locum RM to be here for prenatal, postpartum, and second midwife roles with no caseload.

Kenora Midwives is a busy rural/remote practice serving Kenora and the surrounding area. We currently have privileges at Lake of the Woods District Hospital and have good working relationship with the hospital and nurses. We work with full scope of practice, epidurals are not available for vaginal births and we do not need to transfer care for our inductions. There are no obstetricians in Kenora so we work closely with eight family doctors, with whom we have an excellent relationship and refer our high risk clients to obstetricians in Winnipeg Manitoba when necessary.

For the outdoor enthusiast, our community lies within the heart of Central Canada's Lake of the Woods region. This area offers fishing, hunting, hiking, cycling and boating, beautiful beaches, and small-town hospitality. Our population is about 15,000 in the off season with those numbers tripling in the summer months. We are located 222 km north of the Canada/USA border, 200 km east of Winnipeg and 560 km west of Thunder Bay Ontario on beautiful Lake of the Woods.
