General Registrant - Urgent Need

The Hamilton Midwives is looking for a General Registrant to work with us during the pandemic. This is a full time, full caseload position to start immediately. We will need you until there is no more community spread of Covid-19 but will consider term arrangements.

We are a busy teaching practice with full scope privileges at St Joseph's Healthcare and enjoy excellent interprofessional relationships within the community. We are a predominantly urban practice, but we do cover several outlying suburbs and villages in our very manageable catchment area. We are offering the World Health Organization schedule of in-person visits, and doing as much work as we can remotely. We take social distancing seriously, have a supportive practice culture and are working specifically to promote the emotional wellbeing of the team in these trying times.

The ideal candidate will practice full scope and have experience with EMR but we welcome all applicants. Candidates with privileges at Hamilton hospitals will be prioritized as will those with immediate availability.

Thank you for your consideration. We look forward to hearing from you.

Please send a letter of introduction along with your references to:
