CALL FOR NEW REGISTRANTS

Downtown Toronto Midwifery Practice
Seeking a New Registrant for Immediate Start

Community Midwives of Toronto is seeking a New Registrant to join our well-established downtown practice. Located in the Annex neighbourhood at Spadina & Bloor, our clinic has proudly served a diverse population across the GTA since 1994.

We are offering an NR position with the possibility to continue on in a permanent full-time position within our collaborative practice group. Midwives currently work in both shared care teams of two and primary care models. We value fairness, equity, collegiality, and mutual support, and we are committed to ensuring a smooth transition for midwives joining our community and hospital teams.

We are a busy teaching practice providing full-scope midwifery care, including augmentation and epidural management. We do not manage inductions of labour. Our midwives hold privileges at St. Michael's Hospital and the Toronto Birth Centre.

We are seeking thoughtful, flexible, and collaborative midwives with strong clinical skills who are enthusiastic, self-motivated, and confident working in a dynamic practice environment.

Applicants who provide care in languages other than English, as well as BIPOC midwives, are especially encouraged to apply. Positions will remain open until filled.

To learn more about our practice and the opportunities we offer, please send your resume and cover letter to communitymidwivestoronto@rogers.com with "Midwife Applicant" in the subject line.
We look forward to hearing from you.

We thank all applicants however only those selected for an interview will be contacted.
