

NEW REGISTRANT POSITION

*Starting as soon as funding
for 2024 is granted*

Family
Midwifery
Care

NOW HIRING

Come join us at Family Midwifery Care!

OUR PRACTICE

We are a well-established practice (25years) of 16 midwives working in a shared care model. In this model midwives work in primary care teams of two or three midwives. We are a supportive and flexible group which value giving support to each other and particularly to NR's in their 1st year of practice.

We also have 3 excellent admin staff supporting us. Our charting is done with EMR (Accuro). We serve an urban and semi-rural population and have a 20% home birth rate. Our catchment area is Guelph and surrounding area.

ALL WELCOME

We are actively seeking candidates who have varied personal and professional experiences. We value a diverse work team that reflects the communities we serve. Midwives that identify as BIPOC are encouraged to apply.

ABOUT US

- We serve a diverse group of families in Guelph, Fergus and surrounding areas including some Mennonite and other rural communities.
- We hold privileges at Guelph General Hospital (Level II). 3 of our teams also work out of Groves memorial hospital in Fergus. We have very good inter-professional relationships at both hospitals. We keep care for epidural and oxytocin augmentation.
- We have regular educational rounds held with obstetricians and midwifery department meetings.
- Guelph is a vibrant university community with abundant outdoor activities, agriculture, arts and academics.

We would love to hear from you!
