

COMMUNITY MIDWIVES OF KINGSTON

Seeking: General Registrant or New Registrant desperately needed for March onwards but ideally asap.

Caseload: part-time to full-time (25-40/yr). Practice serves about 500 clients per year

Model of Care: in a team of 2-3 midwives sharing 6-8 clients per month, 2-3 months holiday per year depending on model.

Contact: Please email your CV and letter of interest outlining your availability and caseload and model preferences if any to info@kingstonmidwives.ca

ATTN: Alison Gorringe.

With email subject GR/NR POSITION

Come join our practice!

We are looking for a General or New Registrant midwife to start asap with our practice needing to cover an emergency leave. High likelihood of long-term work if a good fit. We have some flexibility with call model and caseload preferences in order to get the best candidate. All of our teams of 2-3 midwives work in different shared call models to help midwives find the right balance of on/off call time and caseload.

We are a large urban practice, that also has the pleasure of driving the countryside. We have a beautiful clinic and a fantastic team of midwives and 4 admin support staff. We are a high functioning well-organized practice that values consensus decision making, and expects all members to contribute to the daily functioning of the practice. We are an effective team that is committed to a supportive environment. We use Accuro for our EMR. We are a diverse mix of MEP & IMPP trained midwives.

We value and prioritize equity, diversity and inclusion for midwives and clients and high quality innovative client care.

We hold privileges at Kingston Health Sciences Centre, a level 3 teaching hospital with good relationships and plenty of continuing education opportunities. We currently manage epidurals and oxytocin is on the table for scope expansion in the future.

We have beautiful birth pools at our hospital and water for labour and birth is very popular.

Kingston is a fantastic and affordable place to live, great for families and nature and arts & culture lovers.
