

New Registrant Position 2020

Email: midwifealliance@gmail.com

Come join our diverse Toronto practice!

We welcome all applicants, particularly those who are multilingual, Indigenous, POC, LGBTQ, and IMPP graduates.

We serve a diverse community of clients in the west end of Toronto, Etobicoke, and east Mississauga. We offer births at home, the Toronto Birth Centre, and St Joseph's Health Centre in Toronto. We manage epidurals, and are moving towards managing oxytocin augmentations this fall.

The ideal applicant would start clinic mid August, with call beginning in September. We are offering primary call to start, with six days off per month, with the intention for the New Registrant to move to a shared call team of two within a few months. Our New Registrants have typically enjoyed full caseloads, completing their numbers within the year.

We are a supportive and dynamic team and look forward to welcoming you!
