

Small rural practice looking for a GENERAL REGISTRANT or NEW REGISTRANT. We will be a practice of two midwives starting March 1, 2022 and looking for a third midwife with the goal of growing to four midwives.

Our practice is currently a primary care model with flexible off-call days monthly and generous, scheduled time off. The practice has a relaxed but steady pace of work.

Our team meets regularly to ensure adequate support and communication. All team members' input is very appreciated and respected. We encourage and participate in on-going learning for our team members and this is in partnership with our local hospital.

We provide service to a large Amish/Mennonite population as well as many teens. Our home birth rate is 25-30%. Our large catchment area encompasses an area of 45 minutes in all directions from Lindsay, covering the City of Kawartha Lakes and surrounding areas. Privileges are at Ross Memorial Hospital, a level 1 hospital in Lindsay, with strong community support and excellent collegial relationships.

A true, small-town atmosphere, in the heart of the beautiful Kawarthas, Lindsay offers a great community for you and your family. This practice is located with access to cottage country, and just 1.5 hours north-east of Toronto. Located on the Trent Severn Waterway in Central Ontario, the City of Kawartha Lakes offers a unique mix of urban, rural, and waterfront living to its growing population of 72, 000.

Would love to hear your vision for an ideal working situation in a small practice!  
Start date negotiable.

Please forward your CV and cover letter via email to [japlindsaymidwife@gmail.com](mailto:japlindsaymidwife@gmail.com)

Thank-you for your interest!

Sincerely,

Julie Piggott, RM & Catha McMaster, RM
