

## CAREERS / JOB OPENINGS

General and New Registrant Positions

Ready to apply?

Email your resume to [crystalh50@ymail.com](mailto:crystalh50@ymail.com)

Subject line: Application – surname

We are looking to add 1 General Registrant, and 1 New Registrant to our team (Full case load available)

We have privileges at Windsor Regional Metropolitan Hospital and enjoy:

- 12-14% community wide primary cesarean section rate
- supportive hospital colleagues and great staff morale
- 35-50% planned out-of-hospital birth
- High volume of repeat clients
- Reasonably paced primary call
- Flexible off-call and vacation schedule co-created by all the midwives.

We are a small group of midwives with a strong commitment to informed choice, and choice of birthplace. We enjoy fantastic continuity of care with our clients. We are supportive practice and are all deeply committed to supporting one another and our new Registrants joining our team.

We enjoy excellent relationships with the team at our local Level-2 Hospital, that are friendly, respectful, and low stress allowing for inductions and augmentations. Hospital parking is accessible.

Windsor and Essex County is a wonderful place to live with Detroit right across the river. We have all the cost savings, safety, and low commute times of a small city but have the advantages of a large city, with great shopping and an international airport all within a 10-30minute drive. Windsor is the 4th largest ethnically diverse city in Canada. We also have great restaurants, entertainment, and wineries at our doorstep.

We operate out of a lovely clinic space in Windsor that has easy access to E-C Row expressway and close to our hospital.

We love the complete absence of parking and traffic woes in our catchment area. Our country driving is often scenic and relaxing.
