October 27, 2026

North Channel Midwifery, a solo midwife practice based out of Elliot Lake, is seeking locum coverage for 4-6 weeks, from mid to end of January to the end of February. This is a great opportunity for a working vacation in a beautiful area.

The area boasts downhill and cross country skiing, abundant trail systems for snowshoeing, hiking, and snowmobiling. Many lakes providing excellent ice fishing. A community swimming pool with large hot tub and sauna, a number of areas for indoor or outdoor skating, and a weekend movie theater. All of these amenities can be taken advantage of while on call.

There are currently two planned births for February, one rural repeat homebirth, one hospital birth. We have excellent collegial and supportive relationships with our physician and nursing colleagues at our modified level 1. Second Attendant coverage for both home and hospital is provided by a small pool of highly skilled and supportive Registered Nurses.

Accommodations are available through short term rental, including a beautiful, newly renovated bungalow within the AOM allowance for accommodations, or through the local Hampton Inn.

The right fit would be a midwife who is very comfortable with home birth and winter driving. All client visits are done in the client's home, resulting in highway driving most days. The practice serves 3 First Nation communities, an Amish, and a Mennonite community, as well as several small communities.

Please feel free to email Tammy at the address above if you would like more information.
