

Unique Part Time Position Available!
(20BCC's/year)
Accepting Applications for a General Registrant

Start Date: June 2023 with time for orientation and clinic in May
Closing date: Open until filled.

Background:

- **Thames Valley Midwives** is a mixed urban-rural practice situated in a beautifully restored heritage building in Old East Village, London. Our clinic uses Accuro EMR and has two fantastic administrators/practice managers.
- **Our catchment area** is committed to providing exceptional care to a wide variety of groups, which include a surprisingly ethnically diverse population with plenty of newcomers, as well as Old Order Amish, low-German Mennonite and First Nations populations in our rural regions. We offer our clients two satellite clinics in Elgin and Oxford. We also love home birth, with around a 22% home birth rate.
- **Our hospitals** - We are a full-scope practice, which has privileges at both a Level 1 and Level 3 hospital with supportive staff at each site. We have a strong Midwifery Department comprised of approximately 50 midwives at London Health Sciences Centre led by a fantastic leadership team that supports midwives to work to their fully capacity within the multidisciplinary setting. We also have a head midwife at the Woodstock Hospital who helps to facilitate great working relations with our colleagues at this site.

Position Summary:

- We are a large group of midwives looking for a **part time general registrant**, who enjoys working within a shared care model with two other midwives. This part time model involves working one clinic day and one 24 on call shift per week, as well as working a three day weekend (Friday evening – Monday evening) once every four weeks. The advantages of this model include steady working days, lots of time off, yet good continuity of care within the team for clients. This would ideally be a permanent position.
- We are a supportive group of midwives striving to create a manageable **work/life balance** while still continuing to provide excellent **continuity of care** to our clients.

Why move to London:

- We are **centrally located** in a mid-sized city surrounded by countryside, close to the beaches of two Great Lakes, home to the renowned Western University and Fanshawe College as well as having our own airport making travel easy to jet off down South during our snowy months.
- The city as a whole is an **active** one! It boasts many outstanding restaurants, sports and social clubs, festivals, Boler Mountain ski hill, Budweiser Gardens to catch a game or show, The Factory indoor trampolining and ziplining centre, rock climbing gyms, Storybrook gardens for children and several museums so you will never be bored!
- **Raising a family?** No problem. London has excellent public and private schools as well as fantastic neighbourhoods to raise your little ones. There are so many activities to do with your children throughout all seasons.

Requirements:

- Are you a great communicator and team player? Do you work well independently and within the multi-disciplinary team? Are you innovative and forward thinking? Do you value a healthy balance between a happy home life and a fulfilling career? **Perfect!!** We welcome you to apply now to **Thames Valley Midwives**.
