

The Hamilton Midwives

www.hamiltonmidwives.ca

Seeking to fill 2 positions 2023-2024

The Hamilton Midwives is a busy teaching practice committed to helping new graduates launch their careers. We enjoy excellent interprofessional relationships in the community. We are a predominantly urban practice with a diverse clientele, and we hold hospital privileges at St Joseph's Healthcare Hamilton. We value diversity, excellent teamwork and a sustainable work-life balance with generous off call, sleep relief and sick leave policies in place to support this. We are an actively growing practice with a newly renovated clinic space that is bright and airy.

The Hamilton Midwives will provide orientation, support, and guidance to help you lay a successful foundation. You will benefit from an income support program to bridge the gap before you start billing.

We are looking for midwives who are excited to consolidate their learning in a supportive environment where they can leverage their strengths while growing their skills. Ideal candidates will have experience managing epidurals and oxytocin and will feel at ease with e-documentation. Arabic speaking is an asset. With mutual agreement on having achieved a good fit, there is a strong possibility of an ongoing position with us that could become permanent.

We offer 30-40 BCCs with EDDs starting in the late summer or very early fall, clinic to start as soon as you are registered. Start dates for clinic and births can be negotiable.

We are actively working to increase diversity in our team to better represent the community that we serve so we encourage those from all walks of life to apply.

If you would like to join our team for this important first year, please direct your CV and cover letter to:
