UPTOWN MIDWIVES & FAMILY WELLNESS

We are actively seeking a GR midwife to grow our practice. We are committed to improving work-life balance and exploring new models. The ideal candidate will have full scope experience and excellent communication and cooperation skills. We are strongly committed to mentorship. We endeavor to grow diversity in our team that reflects our multicultural clients.

Our patient population is diverse. We are located in the heart of the Hasidic Jewish community and have orthodox Jewish midwives on our team. In addition, we serve a large Hungarian, Spanish and Portuguese speaking population. We are located adjacent to the Lawrence Heights community, providing care for a diverse population of new immigrants, and are committed to safe and accessible care for the uninsured population.

We are located at Bathurst and Lawrence in Midtown Toronto. The clinic and the hospital are easily accessible both from central Toronto and outer areas of the GTA. We have our own small birthing suite adjacent to our clinic space, with access to water birth, and have a robust out of hospital birth rate.

We are a busy teaching practice with full scope (induction, augmentation and epidural) privileges at North York General Hospital. We have a long history of excellent inter-professional relationships within the hospital and the broader provider community, with no caps in hospital privileges and a high demand for midwifery care. We also host a robust EMCM midwifery care clinic at NYGH which offers the opportunity for hospital based shift work for the midwives in our clinician community.

If you are interested in learning more about our practice and what we can offer, please send your resume, cover letter and references to uptownmidwives@gmail.com with Midwife Applicant in the subject line.
