

UPTOWN & FAMILY MIDWIVES & WELLNESS

Uptown Midwives and Family Wellness is a new midwifery clinic located at Bathurst and Lawrence in midtown Toronto. We are associated with Midwifery Care-North Don River Valley through the Ministry of Health's satellite program.

We are seeking one or two New Registrants to join our team of midwives. This is a contract position with due dates starting in June 2019, and an opportunity to transition into a permanent position in the event of a good fit between the midwife and the practice. The ideal candidate will have full scope experience, excellent communication and cooperation skills.

We are a busy teaching practice with full scope privileges at North York General Hospital, and have built excellent inter-professional relationships within the hospital and the broader community. We work in a collaborative week-on/week-off model with generous off-call time and flexibility around holidays.

Our patient population is diverse. We are located in the heart of the Hasidic Jewish community and have two orthodox Jewish midwives on our team. We are also located adjacent to the Lawrence Heights community, and provide care for a diverse population of new immigrants.

We will be interviewing in late February and/or early March. Please send your resume, cover letter and references to uptownmidwives@gmail.com, with New Registrant in the subject line.
