

New Registrant Positions 2021-22

Community Midwives of Halton is a well established practice that services clients in the communities of Oakville, Milton, west Mississauga, Burlington and Waterdown. Our clinics are located in Oakville next to Oakville Trafalgar Memorial Hospital and downtown Milton. We serve a diverse population in our expanding community, seeking to provide inclusive, client centered care. We hold privileges at both the Oakville Trafalgar Memorial Hospital as well as Milton District Hospital, and we enjoy a supportive collegial relationship within both sites. Our practice is full scope and thus experience with epidurals and oxytocin will be an asset for applicants. Interest in homebirth also continues to be steady within our client base.

Our practice has funding for 2 new registrants for the 2021-22 funding year and we are excited to begin the process of finding successful candidates. Our NR candidates will be paired together as a team and work in a primary care model for their NR year. We have created a comprehensive mentoring plan and are committed to fully supporting both new registrants in their practice.

We invite interested applicants to submit their CVs and letters of introduction to midwivesofhalton@gmail.com with "New Registrant Position" as the subject, as we are currently interviewing. Only potential candidates will be contacted for a virtual initial interview. Successful candidates will proceed to a second interview involving Halton Healthcare Services (HHS).
