

COMMUNITY MIDWIVES OF OTTAWA

UNIT 101 - 2260 WALKLEY ROAD, OTTAWA ONTARIO K1G 6A8 T. (613)883-2566 F. (613)319-2565

General Registrant Out-of-Hospital - LOCUM

We are looking for a one year Locum General Registrant to replace a leave on our Low Risk team as an Out-of-Hospital midwife. You would be on a team of six general registrants and one NR. Our call schedule is dependent on client load and vacations.

Our clinic runs out of the Ottawa Birth and Wellness Centre (OBWC) and all our midwives hold privileges at OBWC. Our Hospital Midwives hold privileges at The Ottawa Hospital - Civic Campus. We work in full scope with epidural and oxytocin privileges - experience with these is an asset. We have good relations with the hospital.

We have a 56% planned community birth rate which includes both home and birth centre births. High comfort level with community birth, water birth and excellent emergency skills are mandatory.

We offer services in Mandarin, Russian, French, English and Spanish, and prioritize serving uninsured clients and new immigrants.

To meet the needs of our community, we specifically encourage midwives who identify as BIPOC or Queer, and/or speak a language other than english

We are looking for a hard working individual, who is motivated, self-sufficient and has excellent communication skills. We expect all our associates to contribute to the growth of the practice, which includes outreach, protocol writing, participation in meetings and committees.

In your cover letter, please outline how your unique set of skills will contribute to the growth of our practice and meet the needs of a population, or populations, which are not currently seeking midwifery care.

Ideal start date would be August 2023.

We value your interest in working with Community Midwives of Ottawa!

Please forward your CV with a cover letter to admin@ottawamidwives.ca
Only those selected for interviews will be contacted.
