

ESW 2021 Year in Review

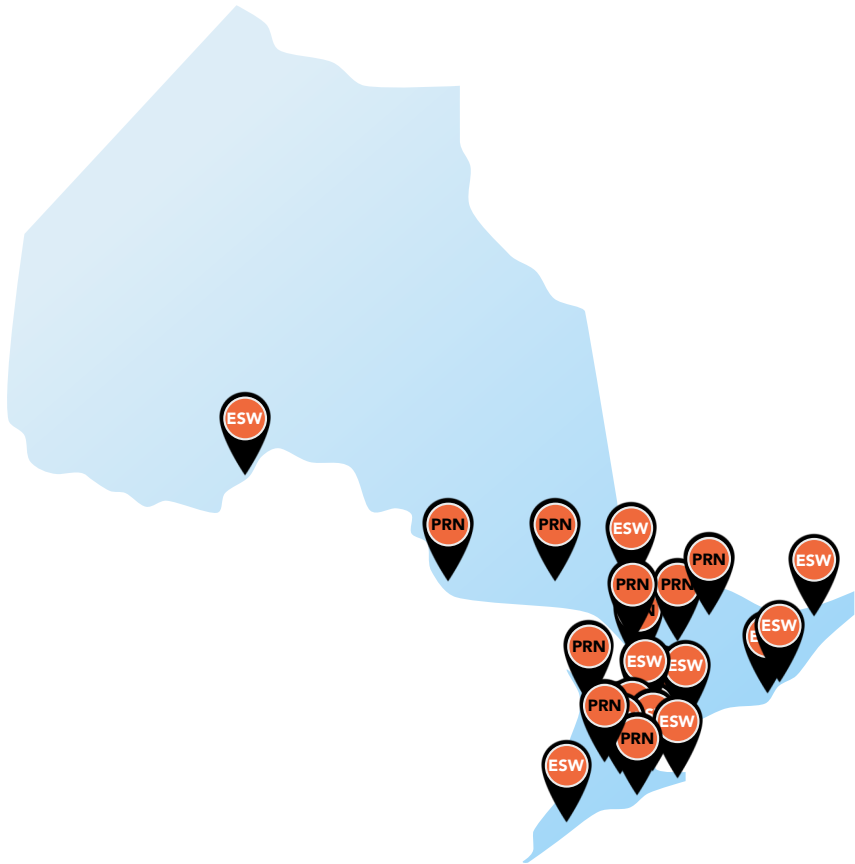

In 2021, the AOM recertified a record number of midwives in emergency skills. To meet the increased demand the AOM provided 35% more ESW spots to midwives compared to 2020. The ESW continues to be offered in-person with COVID measures and precautions, ensuring a quality hands-on and interactive emergency skills training for midwives.

ESW Exam

Introducing: The 7th Ed. ESW Manual

The AOM continues to ensure that the ESW program and related content remains relevant and current for midwives. The 7th ed. of the ESW manual was released on November 1st. This latest edition includes new research on emergency identification and management and includes the addition of new skills for midwives to manage emergencies.
