

*Enhance your clinical skills to confidently
manage obstetric emergencies*

ESWCONNECT

The Emergency Skills Workshop - ESW Connect Program - specifically supports northern, rural and remote hospitals with low-volume obstetric units or with no dedicated obstetric program. It provides participants with foundational knowledge on uncomplicated childbirth and common obstetric emergencies through the ESW manual and the ESW Connect eLearning course followed by hands-on, simulation-based practice.

BUILD CONFIDENCE IN MANAGING:

- uncomplicated childbirth
- antepartum, intrapartum and postpartum hemorrhage
- shoulder dystocia
- malpresentation and cord prolapse
- unplanned breech and twin birth

PROGRAM HIGHLIGHTS:

- Half-Day Workshop
- ESW manual
- Self-paced eLearning
- Course certificate

\$199
