

2 General Registrant Positions

1 permanent position and a 1 year contract

To start February 1st 2024 and the other April 1st 2024

Come join us!

Family Midwifery Care is seeking 2 **General Registrant midwives to start early next year. Both positions are full caseload in a team of 2 midwives.**

We already have the caseload already booked for you.

We are a well-established practice of 16 midwives working in a shared care model. In this model midwives work in primary care teams of two or three midwives. This allows us the satisfaction of getting to know our clients well, while at the same time having a generous amount of off call time. We are a supportive and flexible group where both full and part time midwives are able to work towards a healthy work life balance.

We are actively seeking candidates who have varied personal and professional experiences. We value a diverse work team that reflects the communities we serve. Midwives that identify as BIPOC are encouraged to apply.

We serve a diverse group of clients and families in Guelph, Fergus and surrounding areas including Mennonite and other rural communities.

We hold privileges at Guelph General Hospital (Level II) where we have very good inter-professional relationships. 3 of our teams also enjoy working out of Groves memorial hospital (level 1) in Fergus.

Guelph is a vibrant university community with abundant outdoor activities, agriculture, arts and academics.

We would love to hear from you!

Please apply with cover letter and resume to:
