

**Locum General Registrant Position**  
**9 months contract**  
**With Possible extension**

*March 2021 - December 2021*

Come join us! Family Midwifery Care is seeking a **General Registrant LOCUM midwife from March – December 2021** with a possible extension. This is a position of 32-36 BCC/year, in a pod of 2 midwives.

We are a well-established practice of 13 midwives working in a shared care model. In this model midwives work in primary care teams of two or three midwives. This allows us the satisfaction of getting to know our clients well, while at the same time having a generous amount of off call time. We are a supportive, fair and flexible group where both full and part time midwives are able to work towards a healthy work life balance.

We are actively seeking candidates who have varied personal and professional experiences. Candidates who speak multiple languages would be an asset. Guelph has many newcomers to Canada including a large community from Eritrea. We value a diverse work team that reflects the communities we serve. Midwives that identify as BIPOC are encouraged to apply.

We serve a diverse group of families in Guelph, Fergus and surrounding areas including some Mennonite and other rural communities.

We hold privileges at Guelph General Hospital (Level II) where we have good inter-professional relationships.

Guelph is a vibrant university community with abundant outdoor activities, agriculture, arts and academics.

*We would love to hear from you!*

**Please apply ASAP**
