General Registrant Position Available

Stratford Midwives is a thriving practice that serves both the urban and rural areas in and surrounding Perth County. Our practice is located in the heart of the charming small city of Stratford, which boasts historic inns, a scenic river perfect for strolling or picnicking alongside—and, of course, its famed theatre festival.

Stratford's vibrant arts scene extends well beyond the theatre with year-round events including the Stratford Summer Music Festival.

Stratford offers affordable living, world class technological innovation, including the University of Waterloo's Stratford Campus, and is the home of the Stratford Chef School which influences the caliber of great dining and contributes to our food conscious city.

Our clientele includes women from the Amish and Mennonite communities and our home birth rate is approximately 30%.

We are a growing practice with part and full time midwives working in both primary and shared call models. We have caseload for a General Registrant to work $\frac{3}{4}$ to full time, in a shared call model that allows 26 weeks of off-call time per year!

We have privileges at the Stratford General Hospital and enjoy collegial relationships with the obstetricians and other health care providers in our community. We participate actively in hospital committees including the MAC.

This position has good potential to become a permanent one for the right candidate. We hope to start this position in late Spring 2019, with due dates starting in July. However, there is flexibility with these dates.

Please forward your resume by fax or email to the above address by February 1st, 2019. We thank all applicants for their interest, but will only be contacting those that we wish to interview.
