

GENERAL REGISTRANT POSITION

We are looking for a GR candidate to join our team of 3 lovely midwives. We would prefer an initial contract length of 1 year, but are open to discussing shorter contracts. Funding is available for a GR to join our practice in the 2021-2022 fiscal year with the possibility of a long-term position depending on funding, caseload and fit. Start date, call schedule and caseload are negotiable; full caseload (40 BCCs) is available however we may be able to accommodate a part-time position.

Our catchment extends from Fergus to Dundalk and includes several small towns and a rural area, with clinics in Grand Valley and Mount Forest. We use an EMR (OSCAR) for charting, and have excellent administrative support. Our midwives enjoy peaceful country driving, close proximity to city shopping and services (Orangeville, Guelph) and many repeat clients.

We attend most of our hospital births at Groves Memorial Community Hospital (Level 1+) in Fergus. GMCH staff relocated to a beautiful new hospital that opened in Aug 2020. GMCH has a history of supporting midwifery practice and promoting excellent interprofessional communication. Midwives are welcome to attend weekly obstetric rounds. Currently there are about 475 births/year at Groves. Obstetric, family physician and anaesthetic back-up are available on-call 24/7. We maintain care for epidurals; oxytocin is a transfer of care.

We occasionally attend births at Louise Marshall Hospital (Level 1) in Mount Forest. This is a very small rural hospital suitable for low-risk births only – there are no obstetric or anaesthetic services available. Our home birth rate is approximately 20%.

Ideal candidates are enthusiastic and self-motivated, and have excellent communication and documentation skills. Our practice is looking for a General Registrant with a genuine interest in living and working in a rural community.

Please forward your CV and letter of interest to info@grandvalleymidwives.ca
