

Generations Midwifery Care is looking for a GR who wants to join a compassionate, supportive team of midwives who practice in the Brockville and surrounding area. Due to emergency leaves we have space to welcome a General Registrant who is interested in locum work or joining the team permanently as of July 1st 2021.

Our practice boasts a homebirth rate of over 70% and our hospital births occur in a friendly level one hospital where we are well integrated into the obstetrical team. We have privileges for oxytocin at BGH and enjoy a collegial approach when offering excellent care to all of our clients who chose to have a hospital birth.

As a locum midwife at Generations Midwifery Care I can speak to the welcome I have received and how quickly I have integrated into the team of midwives presently working at this practice. The homebirth rate at this practice is exciting and the community deeply values having the choice of midwifery care.

The town of Brockville is quaint, and the housing prices are affordable (rare in these "Covid times") and there is a variety of choices for school aged children. I love working with the nurses and OBs at BGH and I cannot speak highly enough of the staff and midwives at Generations. This team of midwives is looking for a midwife who has vision for the future of this practice and is interested in staying and becoming a partner (I regret that I cannot be the midwife to fill this role due to family obligations).

I hope my replacement is reading this posting and will get in touch with the administrator at Generations Midwifery Care (613 345 6608). My locum work will be complete at the end of July and I know the midwives are keen to find a GR who is excited to join their team and I can assure you that I have begun building up a full-time case load of lovely clients for the midwife successful in securing this position.

334 Park Street, Brockville, Ontario, K6V 2J2
