

Midwifery Services of Haliburton - Bancroft

We are currently looking for a general registrant to join our practice!

We have been providing care to our rural community since 2008 and have seen significant growth in caseload over the past few years. Our catchment area is extensive and classified as remote by the OMP. We have hospital privileges at Peterborough Regional Health Centre which is approximately 95km away from our primary clinic site and out of our catchment area. As a midwife of this practice, you will be expected to drive a fair bit however traffic is exceptionally light, and the scenery makes it all so worth it.

Our main clinic is located in the beautiful town of Haliburton and our catchment area touches the borders of Algonquin Park. If you love the outdoors and the beauty and tranquility of nature, then come join us!

We are very dedicated to our communities and the families we provide care to. We are also very dedicated to each other. To provide exceptional care to clients we must also ensure we provide supportive care to each other, therefore we strive to recognize the unique needs of each member of our practice. Maximizing work/life balance is important ensuring there is loads of time for that canoe trip!

We are hoping to connect with a midwife that would appreciate why we work here and willing to join our team to help share the extra caseload and demands and benefits of our rural life.

The successful candidate must be experienced and extremely comfortable in a homebirth situation (planned or unplanned) in a remote/rural location and working with a second attendant. We do historically have a 20-30 % home birth rate. The successful candidate must have excellent interpersonal and communication skills and be a supportive team member.

Please forward your CV to rebecca@mshb.ca

Thank you for your interest in our practice and we look forward to welcoming you to our little corner of paradise.
