

Kawartha Community Midwives is seeking to fill a **one year locum General Registrant** position starting call **October 2023** with a possibility of a permanent position for the right midwife. There will be a required period of orientation prior to starting call (clinic / hospital orientation **Sept 2023**). This locum is for a **40 BCC** caseload working in a team of 2 midwives, shared call rotating between week on call/week off call + clinic and 9 weeks of vacation spread through the year. The ideal candidate would be committed to anti- racism, equity and professional development.

As a group, we strive to create a supportive environment and value creativity and growth in our practice. KCM serves a diverse population in both an urban and rural setting. Our team is a mix of newer to practice and very experienced midwives, as well as IMPP and MEP graduates. We are privileged at Peterborough Regional Health Centre and work with a supportive group of Obstetricians and GPs. Although we don't currently have full scope at our hospital, we are beginning epidural management Fall 2023, and will likely have oxytocin in the next year - comfort with full scope is an asset. Approximately 30% of our births are OOH, and we offer the option of birthing in our clinic's birth suite.

Peterborough-Nogojwanong is a community rich with opportunity. The young population has been growing steadily and our community has been thriving along with that growth. Our downtown boasts great coffee, great farmers markets and great restaurants; We are surrounded by lakes, rivers and parks for those who enjoy outdoor living; Our queer community is strong and supported; Arts and culture are valued and easily accessible; The city is progressive socially and environmentally - and is still an affordable place to live! All in all, Ptbo-Nogo is a great place to find a community.

Send your CV and cover letter to admin@kawarthacommunitymidwives.com Attn: Hiring Committee by **July 1, 2023** Interviews will be held early July or as applications are received.
