LOCUM POSITION- General or New Registrant 2022 onwards

The Midwives Clinic of East York-Don Mills (TMC) is a large urban practice in the east end of Toronto. We have privileges at Michael Garron Hospital and the Toronto Birth Centre. We have full scope and excellent relationships with our consultants. We serve a diverse clientele and a large number of uninsured clients. One of our teams also works out of Women's Health in Women's Hands CHC, a community health centre serving uninsured and racialized people from the African, Black, Caribbean, Latin American and South Asian communities in Toronto.

We are looking to hire a locum with a Spring start date (likely March 2022). The position will likely be for a year, with the possibility to extend. The successful applicant can anticipate a full time caseload and to work in a shared care team with generous time off call. We invite MEP or IMPP graduates to apply and we strongly encourage BIPOC applicants. Additional languages spoken would be an asset.

If interested please send a letter of interest and your CV with "Locum Position" in the subject line by October 31 2021 to:
