

MIDWIFERY CARE
NORTH DON RIVER VALLEY

Locum Position December 2020- August 2021

Midwifery Care ~North Don River Valley is looking for a strong, thoughtful and dynamic Locum Midwife to join our busy practice from December 1, 2020 until August 31, 2021. This is an exciting time in our practice. We are experiencing a phase of growth and are starting a shared call model to support a sustainable work life balance for midwives.

We are a busy urban and suburban practice that cares for a wide spectrum of clients and families that include but are not limited to uninsured, Orthodox Jewish, and Korean clientele. We are an active teaching practice with midwifery students, medical students and allied health care providers as learners. We are also involved in many forms of non-clinical work including hospital committees, community involvement, and service at both the AOM and Ryerson University. We have full-scope privileges at North York General Hospital where midwives attend 600 births+/year. We enjoy excellent relationships with all the staff and care providers at North York General Hospital, recently ranked as #2 in Canada and one of the top 100 hospitals in the world (as per Newsweek Magazine).

We practice a shared call model, which offers generous vacation time. There may be potential for an extension beyond the locum date listed.

We are looking for a person with strong communication and organizational skills. An individual with effective problem solving in complex situations balanced with an easygoing personality and a sense of humor are welcome. BIPOC midwives and midwives capable of providing care in languages other than English are encouraged to apply. Resumes are being accepted ongoing.

Please send your CV and letter of introduction to:
