

## **Locum Position**

### **Position:**

Our practice is seeking a locum midwife to join our team. The position is flexible with start date, caseload and scheduled time on and off call. We are flexible in discussing accommodations for midwives looking to work in both a shared care or primary model.

The positions would ideally start in the summer of 2023, but this start date can be flexible.

### **Practice:**

Our new office is in Brampton, Ontario. We have excellent support staff and work using an EMR. We provide care within a diverse catchment area and seek individuals eager to provide unique, client centered care.

### **Hospital:**

We currently hold privileges at Brampton Civic Hospital (level 2+) where we provide full scope (epidural and oxytocin).

### **Home Birth:**

Currently we have a 15-20% home birth rate.

We encourage applicants from all backgrounds, identities and communities.

Please send your CV to [partners@mobhh.ca](mailto:partners@mobhh.ca) with "locum midwife" in the subject line. We will arrange interviews around on call schedules via teams/zoom.
