

We are looking for a New Registrant to join our team Summer of 2023

Are you looking for a supportive and positive practice? We are a group of 7 midwives working in a shared care schedule. We have a beautiful clinic space in downtown Sarnia, minutes from our hospital, Bluewater Health. We maintain care for epidurals, but not for oxytocin. We have just recently started using Accuro EMR. We have excellent support staff and supportive colleagues.

Sarnia-Lambton is a great community to work and live in. Enjoy a lower cost of living, no traffic, and mild winters. We have beautiful waterfronts and many events and festivals throughout the year. Detroit is only a one-hour drive away, with an international airport.

Applicants must be eligible for registration with the CMO. Caseload will be built up by the practice group. This position has potential to become a permanent position. Email your resume including references to info@sarniamidwives.com. Midwives who identify as indigenous are especially encouraged to apply. Only suitable applicants will be granted an interview.
