SEEKING GENERAL REGISTRANT

- **Spring/Summer 2023 start date**
- **32-40cc/year**
- **Shared Call with different call models available**

The Midwives' Clinic of East York-Don Mills (TMC) is a large urban practice in the east end of Toronto. We have privileges at Michael Garron Hospital and the Toronto Birth Centre. We have full scope and excellent relationships with our consultants. We serve a diverse clientele and a large number of uninsured clients. One of our teams also works out of Women's Health in Women's Hands CHC, a community health centre serving uninsured and racialized people from the African, Black, Caribbean, Latin American and South Asian communities in Toronto.

We are looking to hire a **General Registrant**, with possible start dates of **Spring/Summer 2023**.

The successful applicant can anticipate a caseload between **32-40 cc's** per year and to work in a shared care team with **generous time off call**. There is potential for a long term position. We strongly encourage BIPOC applicants. Additional languages spoken would be an asset.

If interested, please send a letter of interest and your CV to:
