Start Date: July/August 2026

Midwives of Brant is looking for a New Registrant to join our team of midwives.

We are a well-established clinic with a long-standing positive reputation within our community. Several of our midwives have worked at Midwives of Brant for most of their careers. We have a diverse client population and a high homebirth rate with an average of 15-20%. Our catchment area includes a 30 minute radius from our hospital including both suburban and rural areas. We have established a good working relationship with the nurses, obstetricians and pediatricians at Brantford General Hospital which is a Level 2 hospital. We work to our full scope, including managing epidurals and ordering/managing oxytocin inductions/augments. Our clinic space is conveniently located across the street from our hospital centrally in Brantford and close to the 403.

The position available currently is for a **full time** position for the duration of your New Registrant year. We are looking for a midwife who has experience working with Full Scope and supports a holistic approach to pregnancy, birth and postpartum. We have midwives working in both shared care and primary care models and we are looking for someone who is willing to work in either model.

Brantford is a community of approximately 120,000 people with many smaller towns/communities surrounding the city in the County of Brant. These areas are continually growing, due to the affordable housing and its central location, between London and Toronto. There are lovely walking/biking trails which extend along the beautiful Grand River in two directions: North toward Paris/Cambridge and East toward Hamilton. The Sanderson Centre of the Performing Arts is located in our downtown, close to Wilfred Laurier University.

Please email your resume and references to no later than March 1, 2026 :
