
WE ARE CURRENTLY RECRUITING

The Midwives of Chatham-Kent are recruiting **one full-time General Registrant Midwife** to join our thriving practice of 6 midwives with an immediate start date. Come meet us and see all we have to offer!

The Midwives of Chatham-Kent is a busy practice with the honour of providing services to clients in our beautiful Southwestern Ontario community. We are searching for someone who is dedicated to cultivating a positive work environment, with solid communication skills and a passion for providing care in smaller communities.

All midwives hold privileges at Chatham Kent Health Alliance, a level 2b hospital. We practice full scope midwifery, including epidurals and administering oxytocin on our own orders. Our practice enjoys solid working relationships with nursing, family physicians, OB's and paediatricians. The obstetrician and anaesthesia staff at CKHA are available 24/7 and are on-call out of hospital. Our planned home birth rate ranges from 10-20%.

Our clinic believes in the importance of midwives working in a model that suits their lives and aspirations best. As such, we have midwives working in a primary care system, while others do shared care. We always ensure that all midwives feel they are supported in their preferences. We offer full-time administrative support, free on-site clinic parking, competitive vacation time, and extra personal time allotted for each midwife.

Chatham-Kent is situated between London and Windsor with close access to the 401. It is a truly wonderful place to live with an affordable housing market. Driving through our catchment area, you will be met with views of lush fields and farmhouses, quaint towns and villages, attractive waterfront communities and medium-sized urban centres.

Candidate requirements:

- General Registrant, legally able to work in Ontario
- Licensed to drive in Ontario and have a personal vehicle
- Registered and in good standing with the CMO
- Possess strong written and oral English communication skills
- Experienced in providing care to diverse populations
- Highly responsible, independent and able to be on call

Please note, this position is conditional on privileging and credentials. Interested applicants can forward their CV and letter of interest by email with "GR position" as the subject line. We look forward to hearing from you!
