Phone: 519-252-4784 Fax: 519-252-4034

CAREERS / JOB OPENINGS: 2023-2024

Midwives of Windsor are hiring! We are a practice of 8 GR and we have funding and a waitlist to hire New Registrants and General Registrants. We are currently all working in primary care model with some interest for shared call. Come and join us as we remodel our practice to a partnership!

We are a friendly and small group of midwives with a strong commitment to informed choice and choice of birthplace. We have a current homebirth rate of 30% or more. We consider our call model to be primary call but do share the call coverage for days off and holidays in supportive and equitable fashion.

We are a full scope practice where we manage inductions and augmentations with Oxytocin and utilize nursing support to manage epidurals. We primarily deliver at Windsor Regional Hospital which is a regional centre with a NICU that routinely cares for babies 28 weeks and above. Some of our midwives also hold privileges at Erie Shores Hospital, a level 1 hospital, to support the many homebirths in our community. We have excellent relationships with all the hospital staff and consultants in our region.

As a border city and an educational centre, in the most southern part of province, we serve a diverse group of clients that is ever expanding. We have a consistent number of non-OHIP clients who greatly appreciate access to midwifery care. Our catchment is a mix of urban and rural communities.

We really love having students involved and seek to support new midwives to be amazing preceptors.

This is an exciting opportunity to come join a supportive and growing practice. Please submit a cover letter and CV to the email below.

We look forward to meeting you.

Please send CV to Email: midwivesofwindsor@outlook.com
