

New Registrant Positions

Community Midwives of Hamilton
356 Main Street West
Hamilton ON L8P 1K2

Community Midwives of Hamilton is seeking two New Registrants with clients booked for the fall of 2019. We would like both candidates to be available for July clinic and on call in the summer.

We offer a positive and flexible work environment with different models of care, including primary and shared care. Our practice members provide mentoring to midwifery students and have strong inter-professional relationships, holding positions on many hospital, AOM and CMO committees.

Our practice has privileges at Hamilton Health Sciences and St. Josephs Hospital. Hamilton is an excellent location for a NR to practice as they're able to develop their full scope of practice skills in a supportive environment. Hamilton has a very diverse population, and our clinic has partnered with North Hamilton and the Francophone Health Centre as well as receiving referrals from other community organizations. This gives the New Registrants well rounded exposure to serving a variety of clients with diverse needs.

Hamilton and surrounding area offers green space, waterfalls, parks and hiking trails alongside a vibrant and re-emerging downtown core complete with ethnic restaurants, theatre and a thriving art scene.

We welcome applications until February 28, 2019. If interested, please submit a faxed or emailed cover letter and resume to the attention of Patricia McNiven.
