

Locum Midwife Position Available  
December 2018 to December 2019  
Vancouver BC

Our team at Pomegranate Community Midwives is looking for a full-time locum midwife starting in December 2018 and continuing through to December 2019.

Pomegranate is a dynamic and supportive workplace located in the Hastings Sunrise/East Village neighbourhood of East Vancouver. We serve a wide variety of clients mostly living in East Vancouver and Burnaby. We share our clinic space with exceptional perinatal massage therapy, acupuncture, counselling and physiotherapy practitioners. There are three midwifery teams at Pomegranate who provide back up, consults and sleep relief for each other. We use OSCAR EMR.

Our particular team is made up of 3.5 midwives. Our full time midwives generally work 24h on-call twice a week, plus one day of clinic. We have a 35-40% planned home birth rate and have privileges at BC Women's Hospital and Burnaby Hospital.

The right candidate will possess excellent clinical skills, including rapport-building, cultural sensitivity, communication and careful documentation. Our team provides outreach antenatal and postpartum care at SMILE, an adolescent pregnancy centre in Burnaby. This is a rewarding and important part of our practice and the successful applicant will also be excited about this work. We are a teaching practice and work hard to provide a supportive and fair learning environment for our students.

Please email your letter of application and CV to [office@pomegranate-midwives.com](mailto:office@pomegranate-midwives.com) Attn Brown Team.
