

GENERAL REGISTRANT - LOCUM

Start date: January or February, 2026

St. Jacobs Midwives is seeking a **General Registrant Locum** to join our team for a term of one year with the possibility of a long-term position. Located just outside of Waterloo, St. Jacobs serves clientele in Woolwich, Wellesley, and Wilmot Townships as well as residents of Kitchener-Waterloo. If you're a midwife who enjoys (short) country drives between home visits but appreciates proximity to a thriving, multi-cultural city like Kitchener-Waterloo, this practice is for you!

Our midwives work in a mixture of collaborative shared care models. Most of us work between 32-38 BCCs per year. This position would join an existing team with an established caseload. We see flexibility as a key to midwifery sustainability. Our practice group values a positive and mutually supportive work environment.

Our clients come from a wonderful variety of backgrounds, which offers immense job satisfaction. We work with excellent translators (including Low German and Spanish) and would love to welcome midwives fluent in these or other languages.

We hold privileges at Waterloo Regional Health Network (Midtown) where we maintain care for epidurals and oxytocin inductions and augmentations (post-dates and PROM). We opened a beautiful birth suite in our clinic space in 2022 which is well used. Our out-of-hospital birth rate is approximately 25-30%.

We are seeking a midwife who is caring, flexible, and conscientious. We are a great team and really try to take care of each other and ourselves as we do this challenging and rewarding work. We are supported by amazing administrative staff who make our lives and work so much easier.

We are excited to welcome a General Registrant and hope that this person will wish to stay beyond their contract and become part of our practice long-term. We offer a transparent path to partnership for associates.

Please submit your resume to discuss working in our well-established and ever-evolving practice.
