

## Call for interest!

Semiahmoo Bay Midwives is looking to hire. Our waitlist is long so we are planning a transition to 2 teams of 4-5 midwives!

**Start time flexible, but ideally summer 2026.**

**New registrants and out-of-province happily supported.**

### **Our Model of Care**

Our practice emphasizes balance to facilitate optimal patient connection and care. We aim to balance income with supporting our clients and preventing burn out. Our practice supports home birth and patient choice.

### **What we offer:**

- Supportive practice - We have a strong team of committed midwives that offer clinical, practical, and general support. We also have great relationships with our OB, GP, and RN colleagues that see us as part of the team. We have two MOAs that provide incredible practice support as well.
- Transparency - Expenses are paid as a percentage with billings paid hourly to ensure fair pay. We are happy to discuss expenses and our pay structure.
- Work life balance - On average, we intake 4 EDDs per full time midwife each month. Our model allows vacations and time off with teams supporting one another.
- Connection with our community and clients - We have a high volume of repeat clients and a positive reputation within our community. Our maternity unit, the hospital foundation, and community leaders regularly involve us in

committee and decision making. We have all the benefits of a small site with big center volumes.

- Stability - Semiahmoo Bay Midwives has been around for more than ten years already! Prior to our re-branding, we were Sage Midwifery for many many years.

**Our needs:**

- Must be certified for CS assist or willing to train
- Must be within 20-30 minutes of Peace Arch Hospital when on call
- Registered or will be registered with the BC College of Midwives and Nurses/Midwives Association of BC

White Rock and South Surrey offer a beautiful blend of ocean, forest, and urban amenities. With Crescent Beach, the White Rock Pier, parks, dining, and Vancouver just beyond, many of our midwives find this an easy place to settle, connect with the community, and restore between shifts.
