

NEW REGISTRANT POSITION

St Jacobs Midwives is seeking a New Registrant starting summer 2023, pending budget approval.

St Jacobs Midwives is one of the longest running practices in Ontario, officially established in 1994. We are a large practice of 11 midwives working to a variety of caseload (25-38 BCCs/year). We are a supportive practice and work in a shared care model of teams of 3 with flexibility in scheduling. We hold privileges at Grand River Hospital, a level-two site, where we practice with **full scope** (oxytocin privileges being implemented this winter/spring). Our practice members have strong interprofessional relationships, and hold positions on many hospital, AOM, and CMO committees.

The team the NR will be joining does approximately 36 BCCs and 2-3 days of call and 1 day of clinic per week. They will have 2 out of 3 weekends off (one 3-day and 1 5-day weekend) as well as 5 weeks of holiday/year. We also offer each other coverage for outside meetings/classes/etc. We also do **IUD insertions** so would be able to facilitate that training for the successful candidate.

We provide services to a mix of urban and rural clients as well as a large Mennonite population. We have a large catchment area including Kitchener-Waterloo, Woolwich and Wellesley townships. We enjoy our home births, and are excited to provide nitrous oxide at home. We provide most of our care at our main site in St Jacobs, but also have a satellite site in New Hamburg. We have recently added a beautiful new **birth suite** to our clinic and are thrilled to see more people choosing to birth there.

Kitchener-Waterloo is a vibrant area with great amenities and many surrounding small cities/towns with a small-town feel. There are two universities and a college, a lively downtown with many restaurants, and many surrounding trails and rivers for outdoor activities.

We welcome applications until **Feb 1 2023**. Interested applicants should submit a faxed or emailed cover letter and resume. Only applicants selected for an interview will be notified.
