

St. Jacobs

Midwives

NEW REGISTRANT POSITION

Celebrating over 30 years, St. Jacobs Midwives is seeking a New Registrant to join our team. Located just outside of Waterloo, St. Jacobs serves clientele in Woolwich, Wellesley, and Wilmot Townships as well as residents of Kitchener-Waterloo. If you're a midwife who enjoys (short) country drives between home visits but appreciates proximity to a thriving, multi-cultural city like Kitchener-Waterloo, this practice is for you!

We are a group of eight midwives working in a mixture of collaborative shared care models. Most of us maintain a caseload between 32-36 BCCs per year. We see flexibility as a key to midwifery sustainability and want to talk to you about a model that can work with your lifestyle needs. We are a welcoming space and are committed to providing inclusive and culturally-safe care. As a teaching practice, we have mentored over 100 midwifery students providing them with excellent opportunities and training.

Our clients come from a wonderful variety of backgrounds including a large population of Old Order Anabaptist clients, which offers immense job satisfaction. We work with excellent translators (including Low German and Spanish) and would love to welcome midwives fluent in these or other languages.

We hold privileges at Waterloo Regional Health Network (Midtown) where we maintain full scope of care for epidurals as well as running our own oxytocin inductions and augmentations. We opened a beautiful birth suite in our clinic space in 2022 which is well used. Our out-of-hospital birth rate is approximately 25-30%.

We are seeking a midwife who is caring, flexible, and conscientious. We are a great team and really try to take care of each other and ourselves as we do this challenging and rewarding work. We are supported by amazing administrative staff who make our lives and work so much easier. The New Registrant will have a full orientation and a mentor assigned to them.

We are excited to welcome a New Registrant and hope that this person will wish to stay beyond their NR contract and become part of our practice long-term. We offer a transparent path to partnership for associates. You will begin with an established caseload.

Please submit your resume by **May 31** to discuss working in our well-established and ever-evolving practice.

9 Parkside Drive, PO. Box 190, St. Jacobs, Ontario NOB 2N0 Telephone (519) 664-2542 Fax (519) 664-1815
