

UPTOWN & FAMILY MIDWIVES & WELLNESS

Are you looking for a dynamic midwifery practice that prioritizes flexibility and collaboration? Bring your innovations in call models, and recruit a friend! We want to hear from you about how you want to work, and about the changing midwifery landscape across the province. We are committed to improving work-life balance and exploring new models.

We are located at Bathurst and Lawrence in Midtown Toronto. The clinic and the hospital are easily accessible both from central Toronto and outer areas of the GTA. We are a busy teaching practice with full scope (induction, augmentation and epidural) privileges at North York General Hospital. We have a long history of excellent inter-professional relationships within the hospital and the broader provider community, with no caps in hospital privileges and a high demand for midwifery care. We also have our own small birthing suite, with access to water birth, and have a robust out of hospital birth rate.

Our patient population is diverse. We are located in the heart of the Hasidic Jewish community and have two orthodox Jewish midwives on our team. We are also located adjacent to the Lawrence Heights community, providing care for a diverse population of new immigrants, and are committed to safe and accessible care for the uninsured population.

We are actively seeking midwives to join our team as soon as possible. The ideal candidates will have full scope experience, and excellent communication and cooperation skills. We are strongly committed to mentorship and growing our collaborative team.

If you are interested in learning more about our practice and what we can offer, please send your resume, cover letter and references to uptownmidwives@gmail.com with Midwife Applicant in the subject line.
