

Urgently Needed Locum Midwife or General Registrant for Midwives of Windsor

General Registrant Midwife (2 positions)

Windsor and Essex County is a wonderful place to live with Detroit right across the river. We have all the cost savings, safety, and low commute times of a small city but have the advantages of a large city, with great shopping and 2 international airports all within a 30 minute drive. Windsor is the 4th most culturally diverse city in Canada. We also have great restaurants, entertainment and wineries at our door step.

We are urgently seeking 2 General Registrants or 1 Locum Midwife to start as soon as credentials are granted. With a full case load to start as soon as possible.

Off call is reasonable with 2 months a year and 1-2 weekends a month and we provide primary care, with coverage for off call times.

Our practice is busy with a good rural and urban mix. We have about a 30% home birth population.

We do our own inductions and augmentations and no transfer of care for women with epidurals.

We have amazing hospital relations and consult with any and all the OBS in the area.

We deliver at Windsor Regional Hospital which is a level 2 1/2 hospital.
