## **Offering Permanent Position – opportunity to transition to full scope practice.**

This full time, permanent position is ideal for someone wanting to work in an established practice in the GTHA. We have positive relationships with our TPA and hospital, and offer all the benefits that working in a large team brings. Start date is negotiable - we have clients waiting from as early as July 2022. There is some choice in call models. We have a generous sleep relief policy and an income protection plan for sick leaves.

We are seeking someone who works well withing a team, who has a positive outlook, and is resilient. You cope well with the on-call lifestyle and manage your time and work efficiently allowing you to maximize downtime. Arabic language is highly valued.

We have enacted anti-white-dominance hiring practices and expect all members of our team to be anti-racist and comfortable working with and caring for people from all walks of life.

We work in full scope and will provide mentoring on the discrete skills of oxytocin and epidural management. Our clinic and hospital use electronic documentation so feeling at ease with computer work is essential. Our platforms are Accuro and Epic. Orientation to the clinic, hospital, e-documentation and community standards will be provided.

We are working closely with our hospital St Joseph's Healthcare Hamilton to develop a midwifery-led unit where midwifery autonomy and physiologic birth are promoted. We are a predominantly urban practice, but we cover several outlying suburbs and villages in our very manageable catchment area.

We have a new clinic space with a comfortable staff area for administrative work, collaboration, and socializing once Covid protocols allow. We look forward to hearing from you!

**Please send your CV along with a covering letter to:**

**Susie Martin**
